

SMBio²⁶ Midwest

Single molecules. Joint research.

Connect with pioneers and shape the future of single-molecule biology together. The SMBio **Single-molecule Biology** Symposium brings together scientists interested in single-molecule approaches from all over the world to share their research, connect, and exchange ideas and experiences.

10 - 11 November 2026 Ann Arbor, USA

Kahn Auditorium, Taubman Biomedical Science Research Building, 109 Zina Pitcher Place

🔊 Invited speakers

Keynote

Michelle Wang

Professor of the Physical
Sciences
Cornell University

Keynote

Michael Poirier

Professor, Department of Physics
The Ohio State University

Keynote

Christoph Schmidt

Professor of Physics
Duke University

Michael Stone

Professor of Chemistry and
Biochemistry
University of California Santa Cruz

Bret Freudenthal

Professor of Biochemistry and
Molecular Biology
University of Kansas Medical
Center

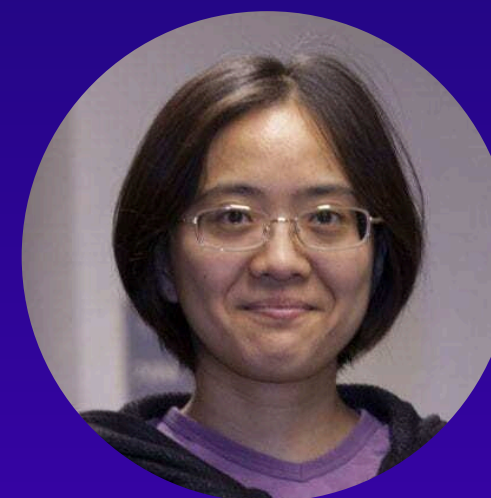

Huan-Xiang Zhou

Professor and LAS Endowed
Chari in the Natural Sciences
University of Illinois, Chicago

Arne Gennerich

Professor, Department of
Biochemistry
Albert Einstein College of
Medicine

Hui-Ting Lee

Assistant Professor, Department
of Chemistry
University of Alabama at
Birmingham

Matt Schaich

Assistant Professor
University of Kansas Medical
Center

Morgan DeSantis

Assistant Professor, Dept. of
Molecular, Cellular, and
Developmental Biology
University of Michigan

Eva De Alba

Professor of Bioengineering
University of California, Merced

Nils Walter

Professor of Chemistry
University of Michigan

Abstract deadline 15 Sept 2026 (but registration for attendance remains open until we're at full capacity)
